Coozus ® ONE Comfort Lounge — Datasheet

Product

Name	Coozus ONE Comfort Lounge
Type	Outdoor lounge chair
Article code	M01.01
Design	Coozus
Production	Designed and manufactured in Belgium
Presented at	Salone del Mobile Milano, Maison & Objet Paris, Ambiente Frankfurt, Antwerp Design Week
Recognition	**Red Dot Award — Best of the Best 2026**

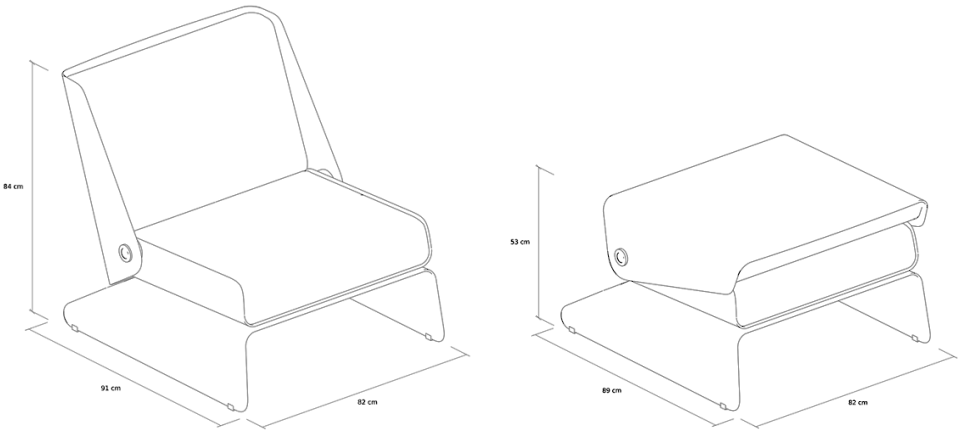

Description

Enjoy the garden or terrace whenever it suits you or your guests. No waiting for cushions to dry, no carrying them in and out.

With DryMotion, the backrest closes over the cushions in one movement of the hand, protecting them from rain, falling debris and direct sunlight. Open or closed, the aluminium frame keeps a clean line in the garden, summer and winter. Closed, the lounge becomes a low table, and its limited height keeps the view open from the living space: ideal for terraces facing the sea or the mountains.

A carefully considered seating position and cushions of three layers of quick-dry foam in different densities make for lasting comfort. At more than 70 cm wide, the seat invites different sitting positions; an optional comfort cushion fine-tunes it further.

DIMENSIONS

Overall dimensions, open (w × d × h)	82 x 91 x 84 cm
Dimensions, closed (w × d × h)	82 x 89 x 53 cm
Seat height	43 cm, inclining 3° towards the back for a relaxed seating position
Seat depth	55 cm
Seat width	72 cm
Weight, incl. cushions	40 kg
Maximum load	115 kg
Packaging (w × d × h)	92 × 99 × 62 cm, approx. 42 kg Delivered fully assembled

FRAME

- 6 mm aluminium frame, fully recyclable
- High quality powder coated: Qualicoat Seaside pretreated, primed and finished with architectural powder coatings
- Cooperation with Sherwin-Williams: for more than 155 years a leader in powder coatings technology focusing on quality products designed for the architectural market.
- Feet: TPU – UV resistant
- Standards:

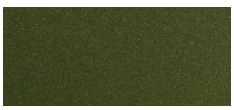

Property	Powder coating	Standard
Quality classification	Qualicoat Class 2, GSB Florida 3	Qualicoat / GSB
Pretreatment	Seaside class (for coastal environments)	Qualicoat Seaside
Adhesion (cross-cut test)	Class 0 (= 0% paint loss, best score)	UNI EN ISO 2409
Surface hardness	>90 (very high scratch and indentation resistance)	UNI EN ISO 2815
Humidity resistance	1000 hours (in extreme test environment)	UNI EN ISO 6270-2

CUSHIONS

Foam

- Quick-dry foam and ventilation holes in the frame: cushions dry quickly if they get wet while open
- Built in 3 layers of different densities for maximum comfort

Upholstery, removable

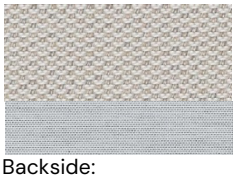

- Cooperation with Sunbrella: combining the touch and feel of an indoor fabric with high UV and weather resistance and easy care.
- Sunbrella acrylic fabrics carry a 5-year limited warranty against abrasion, pilling, loss of colour and strength in normal usage and exposure conditions (see: sunbrella.eu/warranty)
- 7 preselected fabrics, other Sunbrella or client's fabrics on request

Main fabric (in Coozus selection: Lopi or Tundra)

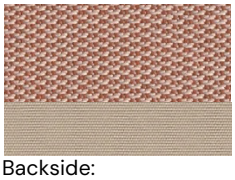

Back and side fabric (in Coozus selection: Solids)

Lopi - Marble

Backside:
Solids - Marble

Lopi - Fawn

Backside:
Solids – Antique Beige

Lopi - Bud

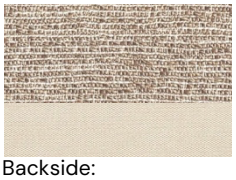

Backside:
Solids – Almond

Khaima - Moringa

Tundra - Rye

Backside:
Solids - Canvas

Tundra - Gypsum

Backside:
Solids - Canvas

Tundra - Varadero

Backside:
Solids - Canvas

Custom

	Lopi	Tundra	Solids	Standards
Composition	Solution-dyed acrylic 100%			
Finish	Non PFAS, Water-repellent & Stain-proof

DRYMOTION
Unique covering mechanism, designed by Coozus
The backrest closes over the cushions and protects their top surface from rain, dew, dirt and direct sunlight.

Operation

- Easy one-hand operation, supported by a gas spring: opening and closing with approx. 2.5 kg of force.
- Soft-close: integrated damping for a controlled, quiet closing.
- Integrated end stops protect the frame in open and closed position.

When closed

- The backrest serves as a table surface, with a 1° slope to the rear for water run-off (when placed on level ground).
- Occasional sitting will not damage it, but it is not intended as a seat.

Materials

Hinges	AISI 316 (marine grade) stainless steel Hard-anodised aluminium with Surlon® KE treatment
Fasteners	Stainless steel A4
Bearings	Maintenance-free polymer plain bearings, moisture and UV resistant
Gas spring	Suitable for outdoor use rated for 100,000 cycles (manufacturer data)
	damping custom-specified for the Coozus backrest

USE AND ENVIRONMENT

All-year-round outdoor use, suitable for coastal environments

Temperature range	Operating: -20 °C to +40 °C (ambient air temperature) When not in use: -25 °C to +40 °C
Hot climates	For frost-free climates where summer temperatures exceed 40 °C, a light colour is strongly recommended; a high-temperature gas spring version is available on request.
Cold climates	For locations where winter temperatures fall below -20 °C, such as high alpine sites or northern Scandinavia, a cold-climate version is available on request.

LIFETIME AND SUSTAINABILITY

- Every part is fully demountable, so it can be replaced or repaired
- Guarantee: 2 years legal guarantee, see our terms and conditions.

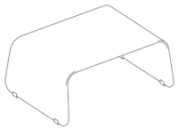

CARE AND MAINTENANCE
Full care guide: coozus.com/care

- Frame: clean with water and mild soap; rinse with fresh water in coastal areas.
- Mechanism: no maintenance or lubrication needed. Check regularly that the backrest opens and closes smoothly.
- Cushions: keep the backrest closed when not in use. If the cushions get wet while the backrest is open, leave it open until they are dry.
- Fabric: clean with water and mild soap; tougher stains can be treated following Sunbrella's guidelines.
- Winter: cushions can stay outside; storing them inside extends their life and appearance.
